From the Director’s Desk….

This past year we have seen what a difference a caring community can make in the lives of its families. Although there are countless examples a few that have risen to the top include:

◊ The tremendous fundraising effort led by a committed group of volunteers to bring a new playground to Kelley Park in Bristol. This group was tireless in their endeavor and garnered forces from our Newfound Community to make this a reality. Build Day saw 60 volunteers - many of which were professional builders - come forth and make this happen.

◊ The outpouring of support that worked to raise funds to help the Kenneth Sanborn family in their time of need. There is no better place to live than here when you have a tough situation to face.

◊ An enthusiastic & hard working group of volunteers that are making our wish for an ice rink a reality. In a few short weeks they have found a way to make it happen from finding boards & getting approval for use of Kelley Park funds, to shoveling the snow off of the area needed. There has been no job too big or too small for this group and help has come from throughout the region.

The Staff & Board are so thankful for the many volunteers, donors and supporters that keep our programs running here at the Center. We couldn’t do it without you. We are blessed to live in this incredible community!
YOUTH PROGRAMS

GOT AN IDEA?

Have a program you think the TTCC should try out?

Let us know your idea and we’ll see if we can make it work! Youth programs, Adult programs, special events, etc.—we’re always open to something new. All of our programs started as someone’s idea...maybe your idea will be the next great program the TTCC offers!

Call, email or stop by the TTCC with your idea!
It is hard to believe that our Community Center is entering its 70th year of serving the Newfound Community...but we are! We have so much to be thankful for in those years. A.B. Thompson had the dream and vision to believe that our community would thrive with our own recreation center. Wink Tapply gave that dream the wings it needed to fly and look where we are today.

Stand the ‘test of time’ programs include:

- We just celebrated our 60th year of Santa’s Village this December and had 1,418 visitors over this magical weekend! When “Wink” conceived of this program those many years ago he could not have imagined that it would continue to grow over the next 60 years and be replicated in all corners of the globe by some of the early participants.
- Awesome After School Adventures continues the tradition of offering a safe and active haven for children to enjoy their out of school hours. We have over 100 participants and provide scholarships to ensure that no child is denied this experience.
- Our Summer Camps provide 8 weeks of full-day camps for grades 1 - 8. The camps continue to be an amazing summer experience with high energy staff, exciting field trips and fun activities. We had 183 youth registered and provided $23,850 in scholarships for these programs.

The Community Center is such an integral part of our communities and our history in the Newfound Region. As we reflect on our 70 years we are so proud to have sustained the dream that was conceived so long ago. Our success can be attributed to an understanding of the need to change with the times and to putting our youth and families first in all decision making.

Examples of current program changes include:

- The addition of staffing to extend our hours for out of school time programming. We are now open on all vacation & early release days from 7 am - 5:30 pm to allow families a place that their children can recreate while they are working.
- We have begun new sport programs such as our ‘Lil Kicks Soccer’ and ‘Lil Hoops Basketball’ for 3 - 5 year olds. There are not a lot of opportunities for this age group and these additions have been so appreciated by the families.
- Our Teen Program is growing incredibly with up to 70 teens attending our Tuesday Teen Night programs. They have dinner with the staff and get their own special time to have the building.

As staff working in this wonderful community organization we are so very grateful for all of the opportunities we have to make a difference. We have the unique opportunity to help mold the next generation through mentoring, physical activities, volunteer and employment opportunities as well as our daily contact.

Of course, none of this would be possible without the generosity of our donors and volunteers. We thrive because of your support. And for that, the Board, Staff, and our families are eternally grateful! Thank you!
